Subject: RE: Fee Increase Needed FOIA Request: EPA-R6-2018-001982

Dear Ms. Ho,

Thanks for your help and the help of Mr. Rudolph. We do not want to withdraw our request, but, based on the information that Mr. Rudolph proved last week, we would like to narrow it both in terms of geography and time. Hopefully, these are meaningful revisions. Geographically, we would like to narrow it as follows:

E/2 Section 11-27N-5E Osage County

S/2 Section 1-27N-5E Osage County

NBU 15-42 SW NW Section 11-27N-5E Osage County

Conklin 9-3 SW Section 9-27N-5E Kay County

Robert Sands 1A NW NW Section 10--27N-5E Kay County

Whitlock Diehl 2 SE Section 16-27N-5E Kay County.

We are interested in the well files of any wells within the above described geographic area, be they injection wells, producing wells, plugged wells or abandoned wells.

As far as a time limitation, we would like to narrow the request to all periods after June of 2013.

Could you please let us know how these limitations affect the cost estimate?

Thanks

FOIA Request: EPA-R6-2018-001982

Dear Ms. Vaughn:

The EPA Region 6 office needs your increased fee commitment decision regarding FOIA Request: EPA-R6-2018-001982 in which you requested information about the Underground Injection Control Final Area Permit Number 06S1264P6273. EPA Region 6 staff have estimated that it will take approximately 816 hours to search/review documents for responsiveness to your request. This equates to a fee commitment of 22, 848 dollars. Please see attached.

Please let us know your decision on the increased fee commitment, or please let us know how you would like to modify your FOIA request to narrow its scope.

We look forward to your response. In the meanwhile your FOIA request has been placed on hold. We will assume you wish to withdraw your FOIA request if we do not receive a response before January 31, 2018.

Sincerely,

Nancy Ho

EPA Region 6 FOIA Team
